

Springtime 20.3.26

It finally feels like spring has arrived!
Here is a special Springtime Song for you to watch together and talk about.

[Days of Spring - CBeebies](#)

Can you spot these signs of spring in the song:

This episode of 'I Can Grow It!' is all about spring time colours. Watch it together and talk about what you see.

[I Can Grow It - Series 1: 1. Colours - BBC iPlayer](#)

This weekend, spend some time outside looking for signs of spring. I wonder what you will find.

If you have time:

- Take photos of the things you find so you can talk about them at home.
- When you wake up in the morning, open a window and close your eyes...can you hear any birds singing?
- Collect a little twig or blossom petals. Take them home and make a magic potion or use them to make a picture using glue.
- Visit the local garden centre and look for different springtime colours and flowers.

Talk about the word in the speech bubble with your child, what does it mean? Explore the word together.

Have fun learning at home together!
